

A Personal Letter

1C Cheng Tak Ho

Dear Sky,

How are you? Let me tell you about myself and my best friends.

I am twelve years old. I have a brother and a sister. They are older than me. My brother likes reading and my sister likes chatting on ICQ. My favourite pastime is playing computer games, such as Counter Strike.

I have a lot of good friends in the school. Let me tell you about my best friends. I have two best friends in the school. They are Peter and John. Peter is an energetic person. He likes playing many kinds of sports. For example, he likes playing basketball and football. He is especially good at playing basketball. He can shoot without looking at the hoop.

The next one that I want to talk about is John. John is a very brave person. He can do a lot of things that I am afraid to do. For example, I am scared of touching the small insects. However, John isn't afraid of them and he even plays with them.

I have to stop here right now because I am busy with my homework.

See you soon.

Kelvin

Teacher's Feedback : This is a nice self-introduction. You have used some good examples to enrich your writing. (Miss Susanna Lee)

Food For Thought : Secondary schoolmates are often our lifelong friends. I am delighted to know you are able to appreciate the strengths of your classmates. Wouldn't it be nice if you suggest an outing and let them meet each other?
